RE: Planned Vegetation Maintenance

Eversource Energy has planned vegetation maintenance scheduled in 2023 within the town of Barrington NH. This work is part of our mandated cyclical maintenance trimming that is performed within the communities that we serve every 4-5 years. This work is critical when it comes to maintaining electrical reliability and safety to our customers.

The work is contracted with Northern Tree Service and will be directly overseen by Crystal Franciosi who is a contracted arborist that oversees our program work in the Epping Area Work Center.

Please reach out to Crystal or me directly if you have any questions or concerns now, during or after the work has been performed.

Thank you.

Ian Farley

Eversource Energy NH

Supervisor: Vegetation Management

Phone: 603-634-2586

A handwritten signature in black ink, appearing to read "Ian Farley", written over the printed name and title.

Town of Barrington Planning Board

4 Signature Dr.

Barrington, NH 03825

Dear Planning Board Members:

This letter is to inform the town of Barrington that Eversource is requesting the approval to complete scheduled maintenance trimming on two scenic roads in Barrington. This work is necessary to ensure the safe distribution of power and improve reliability of electric service for our customers.

According to Eversource records, Canaan Back Rd and Old Settlers Rd (Old Canaan Rd) are scenic roads in the Town of Barrington. Please consider this letter to be a request from Eversource for a public hearing for the purpose of trimming, pursuant to RSA 231:158. This information will be presented to the board. Please inform this office of the date, time, and place of said meeting so that we may have a representative present.

All work will be performed in accordance with accepted arboriculture standards.

Eversource requires that our contractors contact each landowner where trees are to be trimmed prior to commencement of work on that property. Individual concerns will be addressed at this time.

If you have any questions or concerns, please feel free to contact me either by work cell: 603-831-9806, or by email at cfranciosi@acrtinc.com, or crystal.franciosi@eversource.com

Thank you for your assistance.

Respectfully,

Crystal Franciosi

PROJECT NARRATIVE

PROJECT NAME Eversource Energy CASE FILE NUMBER _____

PROJECT LOCATION Old Canaan Rd (Old Settlers Rd)

DATE OF APPLICATION 3-28-23

Property Details:

Single-Family Residential Multi-Family Residential Commercial Industrial

Current Zoning: _____ Lot Area Size _____

Setbacks: Front _____ Side _____ Rear _____

Parking Spaces Required: _____ Parking Spaces Provided: _____

Please describe your project and its purpose and intent. You may attach a typed description.

The scope of this project is routine, scheduled maintenance trimming which is completed every 4-5 years, and is required in order to maintain the safety and reliability of Eversource utilities.

Each property owner on these roads will receive a mailed notification 45 days prior to commencement of trimming, and will have the opportunity at this time, to request a consult if they wish to discuss the work or have concerns.

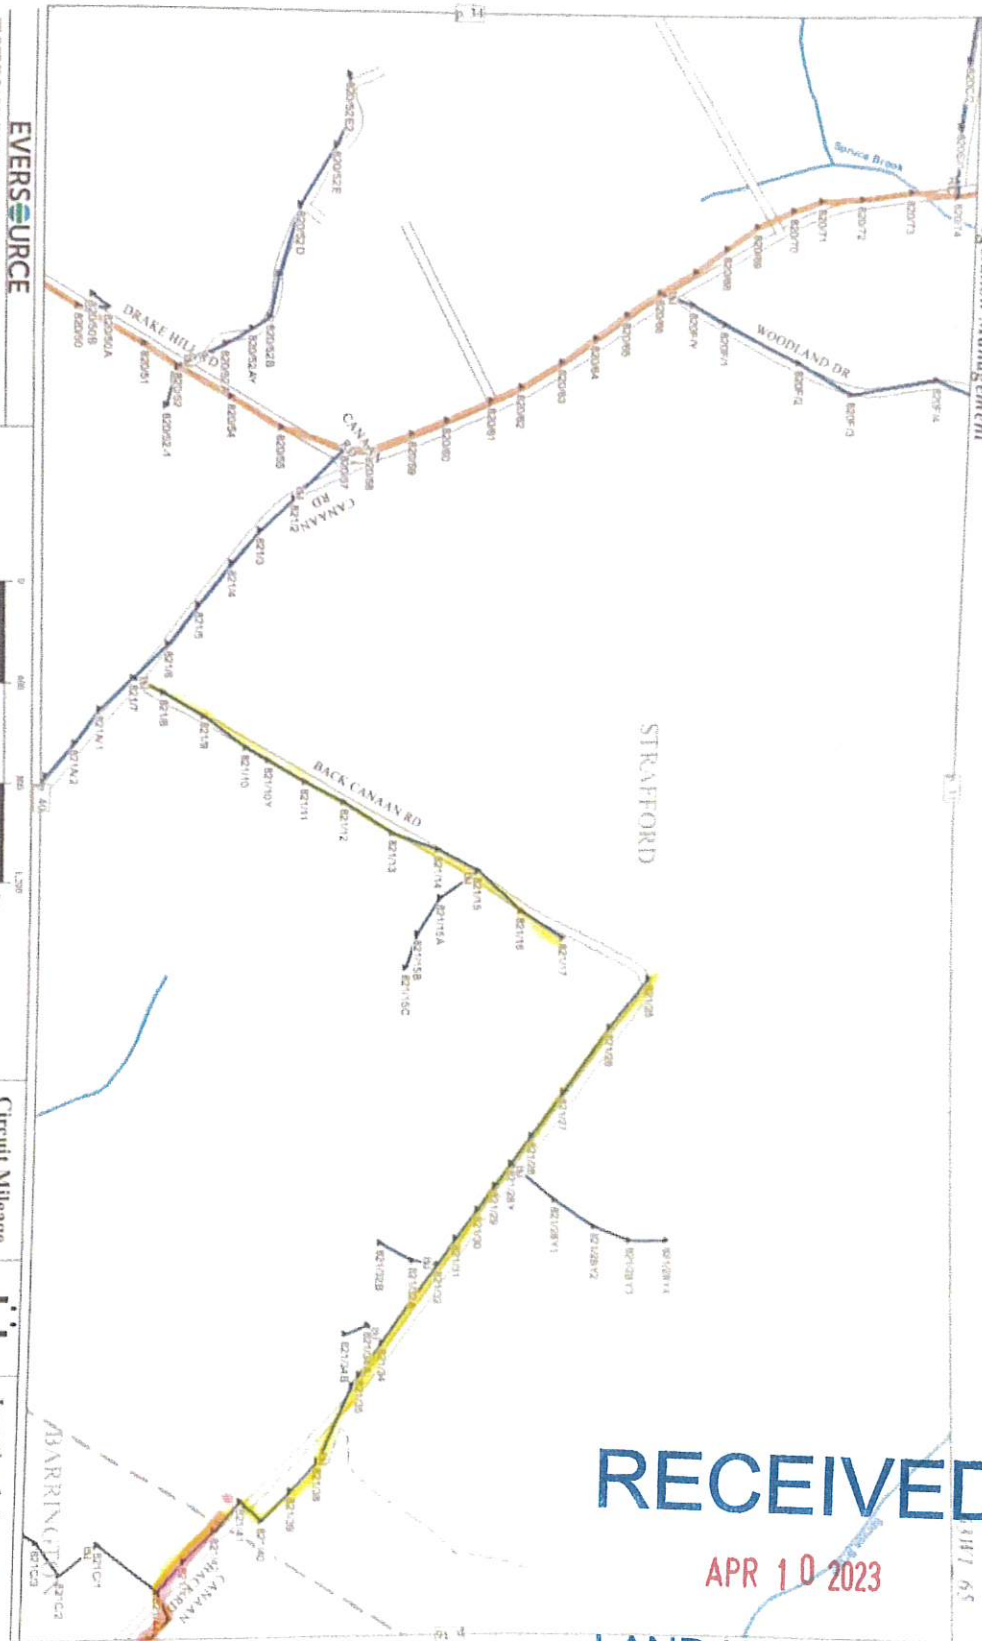

The specs for trimming are as follows: 15 ft above primary line conductors, 8 ft to the side of primary line conductors, and 10 ft below primary lines.

Slow growing trees are **pruned**.
Fast growing trees are **removed**.

Because some trees grow quite rapidly, they pose a constant danger around power lines. To eliminate this danger, the trees must be removed.

Slow growing trees include:

Cedar, Hemlock, Hickory, Norway Maple, Oak, Sugar Maple, and certain other species.

Fast growing trees include:

Ash, Birch, Cherry, Pine, Poplar, Red Maple, Silver Maple, Willow, and certain other species.

Pruning pole-to-house lines

Eversource only prunes the line attached from your home to the pole on the street when trees or branches are directly in contact with the wires. Professional tree pruning contractors can be hired by customers for pruning work near these lines.

Eversource may de-energize pole-to-house lines for professional tree contractors so they can prune trees safely. Please call Eversource at 1-800-662-7764 for more information.

Help us keep you safe.

If a tree branch breaks off and lands on a power line, don't touch the branch or wire. Call Eversource immediately at 1-800-662-7764.

- Don't cut down trees or branches near power lines yourself. Have it done by trained professionals or call Eversource.
- Stay clear of power lines when removing any object caught in a tree.
- No one should climb trees that are anywhere near power lines. Be sure that children understand this.
- Before you plant a tree, make sure it won't grow too close to overhead power lines when it matures.

Remember, the electric lines running from the utility pole to your house are energized and can be dangerous. Don't go near these lines or attempt to prune trees or branches around them!

If you have any questions or would like more information, you can always call Eversource at 1-800-662-7764, or visit us on the web at Eversource.com.

You can help.

Regular tree pruning helps to prevent power outages and means less safety hazards for you.

Put some things together and they just don't mix. Take trees and power lines. They can live mere feet from each other in perfect harmony. But when they touch, it can cause everything from power outages, fires, and downed lines, to safety hazards for people, wildlife, and even the trees themselves.

To help keep power lines safe, Eversource has trees pruned on a regular, rotating schedule. During this time, branches are cleared or certain trees are removed from around power lines before they have a chance to damage property, cause outages, or compromise safety.

Before this work is performed, your consent is needed.

To help ensure public safety and minimize power outages in your neighborhood, Eversource has hired a professional tree pruning company to prune the trees and brush in your area. Pruning is one of the most important means of maintaining and improving tree health and doesn't harm trees when proper arboricultural techniques are followed.

And because keeping power lines safe is our responsibility, there is no cost to you. However, before starting work, our contractor requests your consent.

When the tree pruning company arrives, they will prune to create the following minimum safe distances between the electrical lines and the surrounding trees:

Any limb extending within 8 feet of the electrical line will be cut back. Because proper pruning requires cutting at certain points, branches will be cut at a main branching point, or at the trunk, leaving no stub. Sometimes this may mean the branch is cut more than 8 feet from the wires, but it helps preserve the health of the tree. Trees 15 inches in diameter or less at chest height located less than 8 feet from the nearest wire may be removed.

Any limb above the wire to a height of 15 feet will be removed. Certain main branches on older trees can remain inside of the minimum clearance, but this depends on the health of the tree, direction of growth and likelihood of its limbs reaching the wires.

Species located under the line and recognized as fast growing will be removed. Slower growing species will be left if they have a minimum of 10 feet of clearance to the nearest primary conductor.

Giving consent is easy.

Please read through this brochure and fill out the consent form to the right. Tear along the green dotted line. Moisten glue, fold in half, seal and mail this postage-paid card.

Your response is important.

For those who don't respond promptly, a contractor representative may call to get your consent before work begins. If you do not respond within 45 days, you are presumed to have consented.

Your assigned contractor

Please check the following:

- ☐ **Yes!** Your contractor has my consent to prune or remove trees to minimize outages and maintain required clearances at power lines.
☐ **I request a personal consultation before pruning begins.**
☐ **Yes! Please remove the wood.**
☐ **I do own this property.** (Please sign and date below)

Name _____
 Address _____
 Signature and Date _____

Best time to call _____
☐ **I don't own this property.** (Please identify property owner below)

Phone _____

Please cut lines called on the green dotted line. Then tear in glue, fold in half, seal and mail this postage-paid card.

Hi Vanessa,

I have revised the documents for you. Included are:

1. Eversource authorization letter from Ian Farley (supervisor of Veg. mgmt for Eversource)
2. Project application form (one for each road)
3. Eversource request for trimming letter (written by myself on behalf of Eversource - one for each road)
4. Project Narrative (one for each road)
5. Circuit map showing the roads that will be trimmed
6. Abutter list with my signature as the Agent- (one for each road)
7. List of 26 abutters

8. Eversource notification letter (pamphlet that is sent 45 days prior to trimming)

Please let me know if this is everything you need.

Thank you,

Crystal Franciosi

Subject: Re: Barrington scenic road hearing

Good afternoon Vanessa,

I've attached the required documents. The circuit maps cannot be split apart - please make a copy and include with both scenic road applications.

Is there an option to join the meeting by Teams or remotely in some way?

Our administrator has sent a check totaling \$548. Eversource requires an invoice and receipt, please send for her records. (\$300 for two scenic roads and \$248 for 31 property owners)

Our administrator's email is cynthia.sarvais@eversource.com

Please let me know if this is sufficient.

Thank you,

Crystal Franciosi
